This is the **Difference!**

A Senior Photo Shoot at Paul Wood Photography is an experience of a lifetime.

Senior Portraits are a big deal and should not be trusted to just anyone. We believe that a creative and fun session combined with professional and high quality images are what make your senior photos something you'll remember forever.

Great senior pictures have these six things in common; make sure you look for them!

1. The background should match your outfit and the look of the portrait. It should compliment you, never overpower you.

2. Good lighting is very important! A good photographer knows how to work the light and make sure you look great.

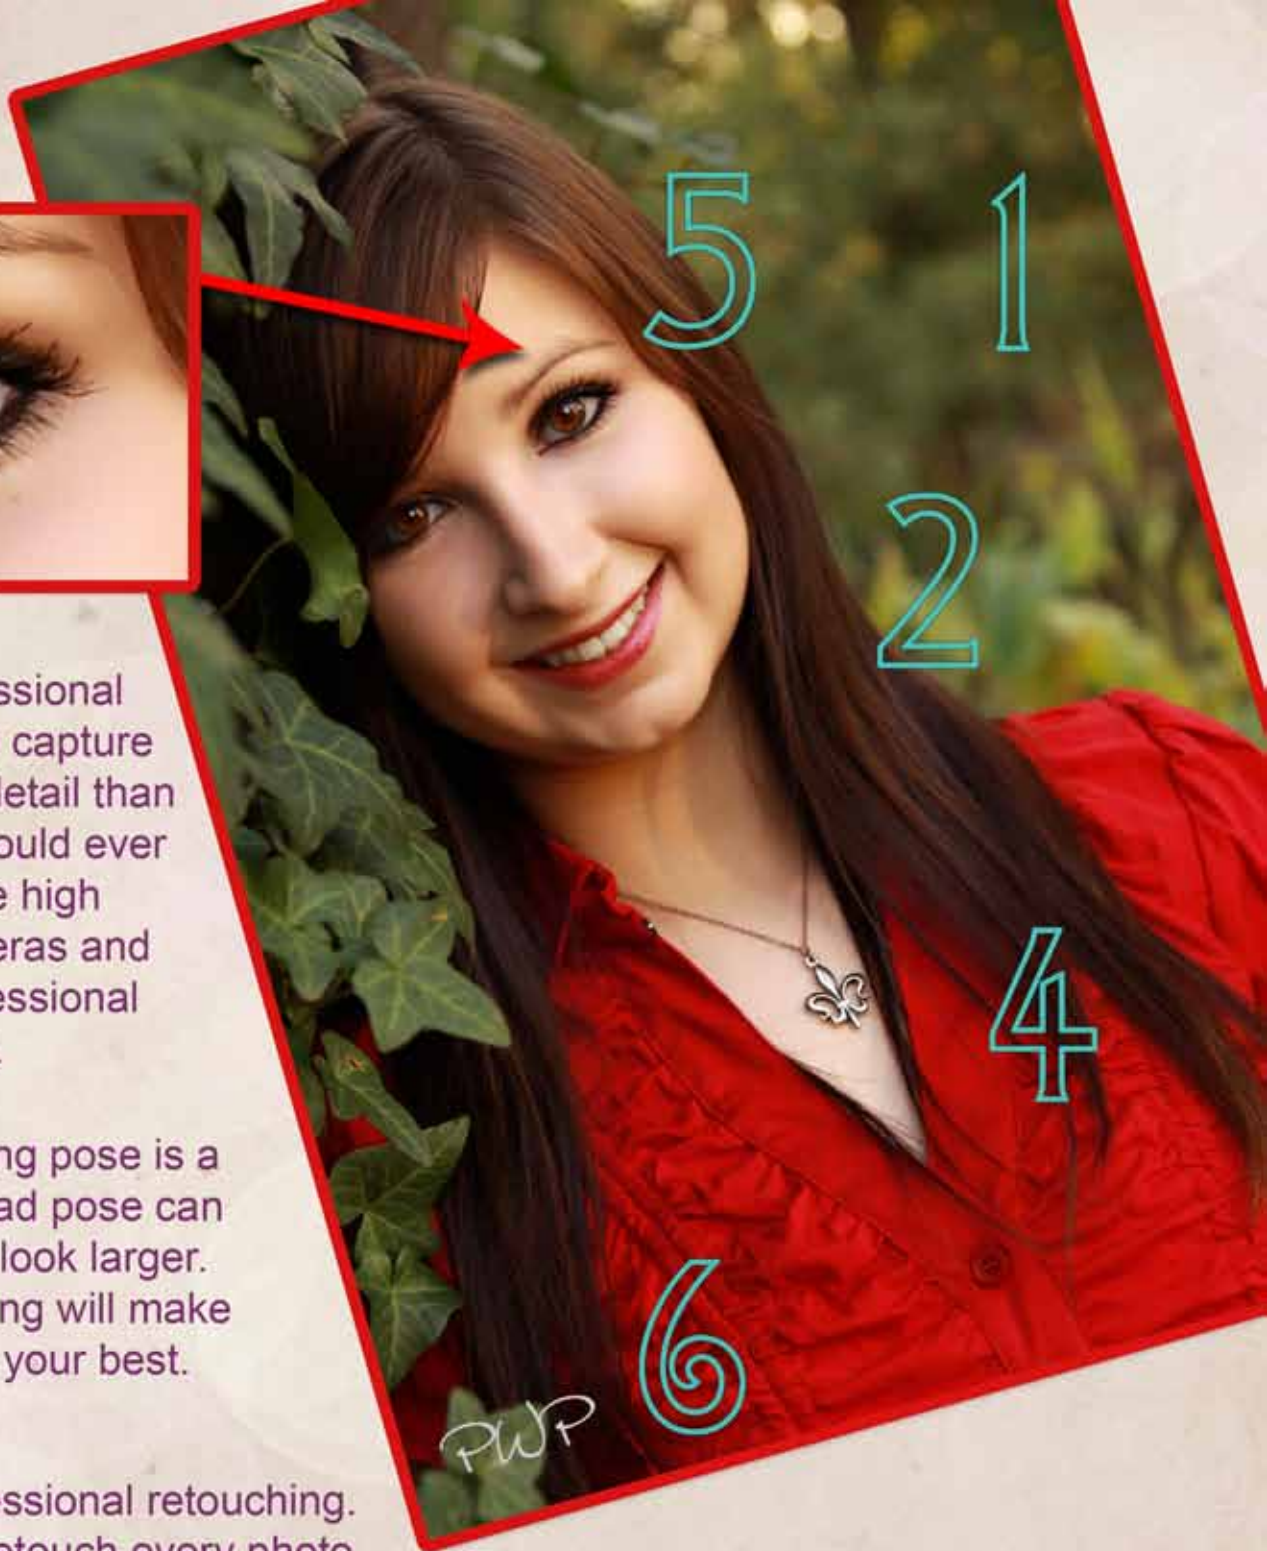

3. True professional equipment can capture more beautiful detail than normal grade could ever see. We use high definition cameras and high end professional lenses.

4. A flattering pose is a MUST! A bad pose can make you look larger. Proper posing will make you look your best.

5. Look for professional retouching. We personally retouch every photo so that you look natural, not plastic. We'll clean up the temporary imperfections while keeping all the things that make you who you are.

6. The PWP logo in the corner. It's the only way to insure the best senior pictures. Look for it.

How it Works. PWP Paul Wood PHOTOGRAPHY

Step 1 Pick the session that fits how much variety you want. See more samples at paulwoodphotography.net and at facebook.com/paulwoodphotography.

Step 2 Give us a call at 985-649-3234 to reserve your day and time. Let us know about anything special you'd like to do during your session.

Step 3 Gather your clothes, your senior ring, your letter jacket, and anything else you'd like to have in your pictures. Then come meet us for a great time!

Step 4 About a week later, come in to view and order your pictures! Expect this to take about as long as the session did, and make sure all the "decision makers" come to the viewing.

Step 5 Get your photos and show them off! After you've picked up, we'll also post them on our Facebook page.
